BIBLIOGRAPHY OF THE DEPARTMENT OF RURAL SOCIOLOGY, CORNELL UNIVERSITY

Supplement 2, for July 1967 - October 1979

This is a selected bibliography of the publications of the Department of Rural Sociology for the period July 1, 1967 through October 30, 1979. The bibliography is a second Supplement to Department of Rural Sociology Bulletin No. 48, now out of print, which listed publications of Department staff members cumulatively through June 1956. The first Supplement listed publications for the period July 1, 1956 through June 30, 1967.

This second Supplement includes only those published works of present and former staff members which appeared during their affiliations with this Department or were the result of research done while affiliated with this Department, as did the two previous bibliographies. Publications of faculty members holding part-time, visiting, or "courtesy" appointments are listed to the extent that such publications are related to the individual's departmental research. Book and bulletin reviews are not listed. Generally excluded are unpublished papers presented at professional society meetings and conferences except for those presented within the last three years. Preliminary research reports prepared for limited use for extension or classroom purposes are also generally excluded. Publications prepared by graduate students as a part of their work for department research and extension programs are included.

Part I lists publications issued by the New York State College of Agriculture and Life Sciences and by the Cornell University Agricultural Experiment Station, by category and author: (1) Search (a research monograph series), (2) Cornell University Agricultural Experiment Station bulletin series, (3) New York's Food and Life Sciences bulletin series, (4) Cornell Community and Resource Development bulletin series, (5) Information Bulletin series, (6) Cornell International Agriculture bulletin series, (7) Cornell International Agriculture mimeograph series, (8) Cornell International Agriculture reprint series, and (9) 4-H publications.

Part II lists publications issued by the Department of Rural Sociology, by category and author: (1) Department of Rural Sociology bulletin series, (2) Regional Development Studies, (3) special reports, and (4) Rural Sociology Extension bulletins.

In Part III, books, professional journal articles, and other publications are listed by author and by category.

This bibliography was compiled by Lucy M. Cunnings under the general supervision of Olaf F. Larson.

Procedures differ for ordering copies of the publications listed under parts I, II, and III, respectively. See the first page of each part for the procedures.
